DATE MAILED: 12/12/2003

Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- | | |
|---------------------------------------|------------|
| By a small entity (Sec. 1.27(a))..... | \$665.00 |
| By other than a small entity..... | \$1,330.00 |
- (b) Issue fee for issuing a design patent:
- | | |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$240.00 |
| By other than a small entity..... | \$480.00 |
- (c) Issue fee for issuing a plant patent:
- | | |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$320.00 |
| By other than a small entity..... | \$640.00 |

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Drawings

1. The drawings were received on 24 June 2003. These drawings are not approved. The applicant is required to submit new drawing corrections that are compliant with the USPTO form 948 rejections of 22 February 2002, and 9 December 2003 under 37 CFR 1.84. Corrections to the drawings are required.
2. The drawings are objected to because of drawing errors found under 37 CFR 1.84, or 37 CFR 1.152, see the attached USPTO form 948 of 9 December 2003 in paper 8. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Response to Amendment

3. The RCE including the amendment to the application has been entered. The applicant has amended claims 1, 5, and 9 and added new claims 13-18 in the instant application. Claims 2-4, 6-8, and 10-12 were cancelled by the applicant. Independent claims 1, 5, and 9 were previously allowed. The drafts person has rejected the replacement drawings that were submitted by the applicant on 24 June 2003 in paper 7 on 9 December 2003.

Allowable Subject Matter

4. Claims 1, 5, 9, and 13-18 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Art Unit: 2863

The invention in the instant application for a method found in independent claim 1, claim 5, and claim 9 for detecting fractures in a fractured zone of the geological earth formation with steps of transmitting and receiving a plurality of seismic traces and with the steps of using a first and second window and with the steps of generating a first and second frequency spectrum associated with the first and second portions and corresponding to the first and second windows with the steps of superimposing the first spectrum onto the second frequency spectrum, and with the steps of generating and defining a high and low frequency with the steps of defining a high and low frequency to determine the amplitude values, and with the steps from the plurality of signal amplitudes used to define a (t) time attribute by subtracting the ratio of frequencies F_a to F_b with the steps to derive and define the defined high frequency less the defined low frequency and provide for the plotting of the time attribute on a data map and assign a unique color to the time attribute for the fracture zone is not found in the cited art of record.

Claims 13-18 which are dependent on the allowed independent claims 1, 5, and 9 are allowed at least for the reason cited above.

It is these image-processing limitations of record in paper 2 on 14 March 2003 expressed in each of these amended claims and not found, taught or suggested in the prior art of record that makes these claims allowable over the prior art.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2863

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
